## PROJECTS

### CRM

- A one-stop real estate CRM software solution to turn leads into clients with a real-time and systematic follow-up.
- An agent can directly begin a conversation with a potential buyer over a call or chat.
- Reward System: This is a motivational feature that keeps your agents engaged in the lead generation application, he gets points based on specific actions performed for a lead.
- Online lead generation is done with precise task management. An agent can efficiently manage his overdue tasks by getting a complete overview of the dashboard with details like today, upcoming, and completed tasks. In this way, he will easily be able to prioritize his lead-based tasks.

### Cloud Telephony

- Easy to Access Chrome Extension for Virtual Phone Calls.
- Users can log in with a Twilio SID or an AUTH TOKEN.
- There is no complex installation for the virtual phone system. One just has to add a chrome extension to its system.
- Active calls can be recorded and then stored as a digital file to be transcribed or listened to at a later stage.
- An intuitive keypad dialer opens up for the individuals to dial & engage with a global clientele. In addition to the functionality, we have integrated hang button to leave or cut the ongoing call in a user-friendly way.

### Abjure

- Abjure is the web solution for the online jobs marketplace in the UK, specifically for those who are actively looking for job opportunities in the Dental Industry.
- Job Search & Recommendation: Dental Professionals who are interested in working with Dental practices around their region can search the jobs with a number of filters to find the best match
